About me

I'm in my final year of Information Technology, combining academic experience with hands-on experience in enterprise IT. At Everpure, I work in technical support, with previous experience as a Backup Team Lead where I handled escalations, performed QA reviews and helped ensure the team consistently met its SLAs.

Technical Services Associate. From June 21st, 2024- The present day.

Movate | Utrapark Lagunilla

- Provide L1-L2 support for Everpure FlashArray and FlashBlade, diagnosing hardware and software issues using Linux CLI, SNOW and Salesforce as core tool.
- As part of Pure1-TSE team I managed SafeMode security configuration, MFA set-up and resets, support non-SSO accounts and secure data eradication.
- Prioritize tasks, ensure attention to detail and apply problem-solving skills in complex situations.
- Investigate incidents by analyzing log data, escalating critical cases for incident response teams.
- Efficiently manage customer cases and resolve issues in B2B environments.

DLS-SSG Case Manager. From July 11th 2022- April 26th 2023.
Amazon | Virtual office

- Utilize Salesforce as core tool for case management.
- De-escalating calls and evaluate the team metrics and provide mentoring to peers.
- Make critical decisions regarding leave of absence benefits, demonstrate strong analytical skills and attention to detail.

Customer Service Specialist. From August 2021- April 2022.
Robert Bosch | On-site

- Resolved high-volume customer inquiries and escalations.

Education

- **Bachelor's degree in computer science** | Universidad Hispanoamericana (January 2027).
- **LPIC-1** | Linux Professional Institute (LPI)
- **FA Data Storage Professional** | Pure Storage
- **CISCO IT essentials complete** | Universidad Nacional
